

## FONDANT 101 (FO101) STUDENT KIT

At BACAA, we blend the art of baking and cake decorating with a deep commitment to sustainability. We support efforts to sustain our planet by using eco-friendly and biodegradable products in our kitchen classroom, and by avoiding single-use plastics wherever possible. Our goal is to inspire future bakers to create delicious treats with care—for people and the planet. Therefore, we require that all supplies be brought in **CLOTH** carrying bags (examples may be found on the BACAA website). Please **DO NOT** bring supplies in cardboard boxes or metal containers. All supplies need to be removed from their original packaging as there is no time to do this during class.

Be sure to adhere to class dress code specifically with regards to bringing an apron.
